

Survey of Math Registration

At UNM, *MATH 1130 – Survey of Math* now requires a co-requisite of *FYEX 1020 – Math Learning Strategies*, which provides preparation for upcoming concepts and additional support to help you successfully master the course content.

These courses are paired section-by-section, which means you need to register for FYEX 1020 with the same section number as your MATH 1130 course. For example, MATH 1130 section 001 is paired with FYEX 1020 section 001. You can view section numbers in the registration portal:

Please note, together MATH 1130 (3-credit hours) and FYEX 1020 (2-credit hours) adds up to a combined 5 total credit hours. To help you reach 12 or 15 registered hours, as needed, in order to maintain your financial aid and/or scholarships, you may want to consider a 1-credit course from areas such as PHED or FYEX.
